PROFILE

An aspiring frontend developer with a keen eye for design and a commitment to creating seamless user experiences looking for opportunities to embark my career journey as a frontend developer.

PERSONAL PROJECTS

Weather App

November, 2023

An app that checks the weather around you and all over the world at a glance.

2D Breakout Game

September, 2023

A 2D Breakout game is a classic arcade-style video game that typically involves a paddle, a ball, and a wall of bricks.

Quiz App

October, 2023

An app that displays a set of questions based on selected category and difficulty level and then gives the report card based on your performance.

NextJS Project

April, 2024

A NextJS project with TypeScript and TailwindCSS which displays a list of cards with light and dark mode.

Flexor

June, 2022

A UI based project that displays visually appealing experience for users for all screen sizes.
